

# An Introduction to HYT Science & Technology Co. Ltd.

# HYT——A leading radiocommunication solution provider

- Established in 1993
- Headquarter in Shenzhen, China
- Monthly production capability of 60,000 units
- More than1,800 employees with about
  450 engineers and technical personnel

#### **HYT Tower**

#### **HYT Products & Solutions**

Handheld Radio
Mobile Radio
Repeaters
Patrol System
Simul-cast system

**Conventional Radio** 

PT-790

MT-690

iNetra

Trunked system terminals

QH-1327 MPT trunked System

Digital trunked system

Trunked System Solution

Tetra System Solution

## **Conventional Terminals**

#### **NEW PRODUCT**

#### **PT-790**

#### **Tetra Terminal Handset**

- Talk Group TMO: 512 / DMO: 208
- GPS Location Service
- Exceptional Audio Clarity
- Color LCD Display
- Voice Service Call
- Security Service
- Data / messaging Services

#### **Super Features**

- IP67 Water Proof
- 5W RF Power( UHF&VHF)
- Real Time Clock and Soft Power Off
- Voice Record (Optional)
- Data Transmission
- ◆ HDC1200 HDC2400<sup>TM</sup> DTMF 2-Tone
- Patrol /Encryption/ Smartrunk Expansion (optional) \*

Model	Frequency	<b>Mass Production</b>
TC-980	450-520MHz	1/31/2008
	400-470MHz	1/31/2008
	136-174MHz	3/31/2008

## **Trunked System**

MPT1327 Trunked Radio System

Mini-trunked Radio System

Intelligent Extending System

Intelligent Conventional Repeater

Emergency Communication Vehicle

Portable Trunked Radio

## Sales & Marketing

http://www.hyt.cn

#### **HYT's Global Market**

➤ Subsidiary company: HYT UK

HYT America

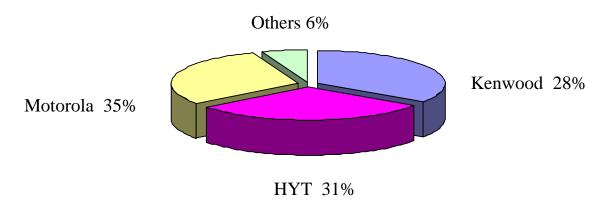

HYT Indonesia

- Russia, India offices (under establishment)
- > 150 distributors around the world
- > Products sold to more than 80 countries

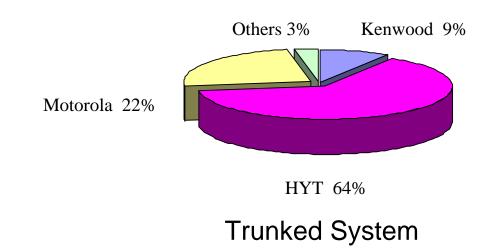

### HYT's Market Share in China (2006)

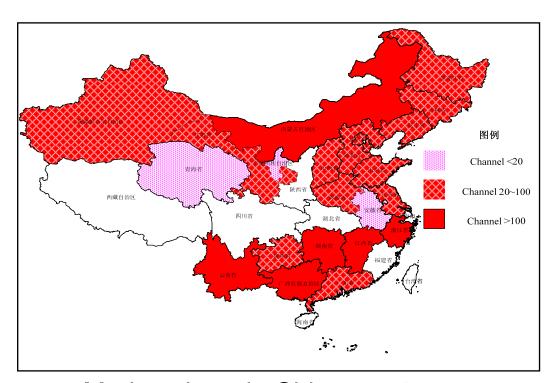

#### **Conventional Terminals**

## HYT's Trunked System in China (2007)

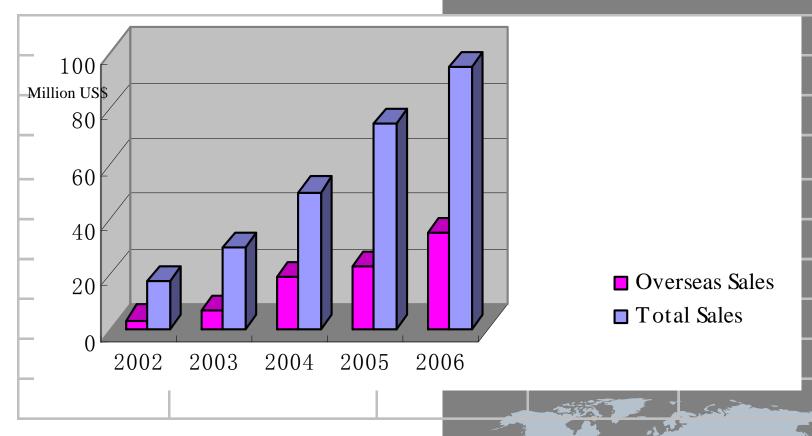

Market share in China: 70%

#### **Key Customer List in China**

- ◆General staff of PLA
- ◆PLA., Chengdu
- ◆Yunnan Provincial Police, PRC
- ◆Ningbo Metropolitan Police PRC
- ◆Mongolia Provincial Police, PRC
- ◆Guangxi Police PRC

#### **Overseas Sales**

The overseas sales has dramatically increased at the annual rate of 300% from 2001 to 2006

#### **Major Customer List**

- ◆United States Federal Army
- ◆United States Postal office
- ◆Korean Air Force
- ◆Hong Kong government
- **♦**Russia Police
- ◆Sri Lanka Air Force
- ◆Philippine Parliament
- ◆Iraq Police
- ◆ South Africa Cape Town Police
- **♦**Chinese State Police

### **Exhibitions**

2007 in Germany (CeBIT)

2006 in Belgium

2006 in the US (IWCE)

### **HYT Distributors**

Malaysian distributors in HYT

**HYT staff in Australia distributors meeting** 

Korean distributors in HYT

**German distributors in HYT** 

http://www.hyt.cn

## Research & Development

http://www.hyt.cn

### **Research Center**

- Professional Wireless Project R&D Center
- Trunked System Research Center

### **Main Laboratories**

- High Frequency Laboratory
- ❖ General Standard Laboratory
- Environmental Laboratory

- chapter 1 Factory Dimensions
- **chapter** 2 Production and testing equipment
- chapter 3 Manufacture technics
- chapter 4 Automatization and information

□ Factory area: 6000m² (There is enough margin area and we can overspread the factory area to 12000 m² if it is necessary)

#### □Production line:

• SMT: 6 lines

Assembly: 12 lines

Packing: 4 lines

#### □Produce ability per month:

Product of wireless communication: 200K pcs

## **Factory Dimensions**

**SMT Workshop** 

## **Main Equipment**

**Automatic Imprinter** 

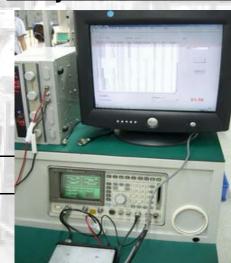

SMT machine

X-Ray measure machine

<u>Comprehensive apparatus / Ultrasonic jointing machine Automatic testing stage swept apparatus</u>

### **Manufacture Equipment**

Automatic design and empolder clamp

### **OA & Management System**

**HYT Automatic testing stage** 

**ORACLE ERP system** 

Office automatic system (OA)

**Bar Code system** 

http://www.hyt.cn

http://www.hyt.cn

Adhering to our quality objective of 'customer satisfaction', HYT established perfect quality assurance and control system.

Long-term cooperation with worldwide famous electronic and components manufacturers such as National Semiconductor Corporation, Panasonic, Hitachi, Toshiba, and Mitsubishi.

Rotary switch	ELMA TOCOS
PTT button	ALPS.
Socket	HOSÎDEN
Microprocessor	MITSUBISHI ELECTRIC
Memory	<u>AIMEL</u>
Amplifier	TOSHIBA National Semiconductor
Transistor	PHILIPS ZETEX
Diode	Hitachi ON Semiconductor®
Resistor, Capacitor	<u>muRata</u>
Crystal Filter	RL TOKO
Speaker	FOSTER
Battery Cell	SANYO

◆Quality Management : ISO9001:2000

- ◆Environmental test standard: MIL-STD-810
- ◆Material inspection: ISO 2895-4:1999
- ◆Other tests:
  Performance test
  User Simulation test
  Field test

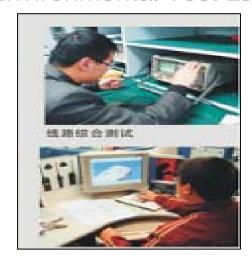

#### **R&D Center Labs**

**Environmental Test Lab** 

General Lab

RF Lab

Trunking System Lab (located in Harbin)

HYT

- ◆ High Temperature Test
- ◆ Low Temperature Test
- ◆ Thermal Shock Test
- ◆ Rain Test
- Humidity Test
- ◆ Salt Fog Test
- Dust Test
- ◆ Low Pressure Test
- Vibration Test
- ◆ Drop Test
- **♦**Corrosion Test

Low Temperature Test

Salt Fog Test

Vibration Test

#### **High Temperature Test**

To make sure the radio can work at +55  $^{\circ}$ C without any deterioration be stored at + 60  $^{\circ}$ C.

#### **Low Temperature Test**

To make sure the radio can work normally at -25  $^{\circ}$ C be stored at -40  $^{\circ}$ C.

#### Thermal Shock Test

To determine whether the product can withstand sudden changes in the temperature without any temporary

or permanent deterioration in performance after several test cycles.

#### **Rain Test**

Test the radio's ability to resist water.

#### **Dust Test**

Evaluate the radio's ability to resist effect of sand and particles.

#### **Vibration Test**

Determine radio's resistance to vibration stresses encountered in shipment and application environment.

Vibration test platform

Max vibration frequency 4000Hz,acceleration 70g

#### **HYT Milestone Events**

1995: Development of the first two-way radio for the commercial market in China

2001: Acquirement of CE, FCC, PCT certificates

2002: Authorization of registered UN supplier

2003: Registration in Tetra MOU and APCO organization

2004: Provision of trunked system to Iraq Police Force

2005: Entry into Japan market; acquirement of orders from U.S.A Federal Army and Postal office

2006: Awarded the Tech-innovation prize of Chinese government

2007: Awarded "The Leading Enterprise " Prize of Shenzhen government

#### **Awarded Certificates**

ISO9001 Certificate

National Certificate of Technology Progress

National Significant
New Product Certificate

National New Product Certificate

2002 Credible Company

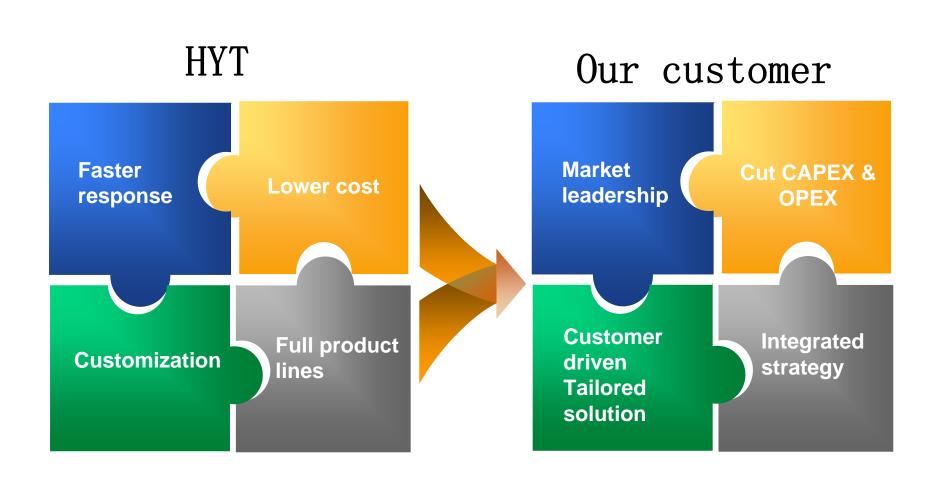

Certificate of Technology Progress

Silver Medal of Technology Progress

Advanced Company of Exportation

## Summary

#### Professional Two-way Radios

## Team up with HYT

## Dance to the beat of security!
